Introduction

This discography runs from Larry Norman's early days with People until November 2003 when I was about to give up on Larry Norman's out of control discography. In March 2004 version 6.0 of this discography was released, after which I fled from the scene.

As of lately I have been drawn back to Larry Norman's discography, mainly because of the listing of some of his albums (and a few singles) on Discogs, where I contributed with adding releases, images and a few corrections. As a result I decided to revive my own discography and to make it available through Discogs. I have spent so many hours on this project that it felt to be a waste if I continued to use it just for myself.

No efforts have been made to include the releases from 2004 until now, except for the re-releases of albums that were in the discography already. However, the [website](#) lists the titles missing in the discography.

This discography is divided into two parts. Part I lists the first two People albums and the People singles plus all of Larry Norman's solo albums and singles. Part II gives a listing of all "mystery" albums and projects, which have been mentioned in newsletters, innersleeves, etc. but were never released. Excluded are most compilation albums (some are listed in part I, mainly because of a Larry Norman contribution that was first or only released on this compilation), videos (although some are mentioned in part II) and the albums of artists where Larry Norman was involved in.

I made use of the linear notes on albums, articles and discographies by others as well as Claude Crain's book "The Gospel Rox", various price guides and Brian Moore's discography. For various reasons I would like to thank the following persons: Erik Bakelaar, Terry Bolton, Jim Böthel, Callum Beck, Jon Brotherton, Michael DeLooper, Pieter Geneugelijk, Chris Gibson, Kerry Hopkins, Gunnar Lorens Lien, Shelley Lipski, Tom Meier, Brent Pacheco, Mattias Petersson, Lonnie Riley, Derek A. Robertson, Mike Rohlinger, Paul Shaw and Frode Stallemo.

For a few Larry Norman links; see the last page in the discography.

I sure hope you enjoy all the information, but maybe you should listen to the music instead!

Notes

- ♪ This is the first album featuring Larry Norman. The band had a hit with the single "I Love You" in 1968 (in several countries). Larry Norman left People when the album hit the stores, to pursue a solo career.
- ♪ "We Need A Whole Lot More Jesus (And A Lot Less Rock 'N' Roll)" was the album title Larry Norman had in mind, but Capitol released it as "I Love You". On the interactive part of the 2CD re-release of "Upon This Rock" you can find a picture of the cover art as Larry Norman intended. The title shown is "What We Need Is A Lot More Jesus And A Lot Less Rock & Roll" (click on 'Notes' above to see it). The LP pictures also show both sides of a mono Capitol test pressing (titled "I Love You").
- ♪ "We Need A Whole Lot More Jesus (And A Lot Less Rock 'N' Roll)" is the exact song title given on the label. On the cover the title is given as "What We Need Is A Lot More Jesus And A Lot Less Rock 'N' Roll"; the complete title is between brackets and it seems to be a subtitle for "I Love You" (which it is not).
- ♪ Larry Norman co-wrote "1000 Years B.C." and "The Epic" (according to the labels). "I Love You" was written by Chris White of The Zombies (their version was released on the Parrot label, 1965). "We Need A Whole Lot More..." was written by Wayne Raney, a C&W artist who played with the Delmore Brothers and recorded this song for both Poor Boy and Starday in the late 50's.
- ♪ All original Capitol singles from 1967 and 1968 were issued in mono. The Phydeaux album "Down Under (But Not Out)" features the original mono versions of "Ashes Of Me", "Riding High" and "Somebody Tell Me My Name". The Brazilian T-2924 version of this LP is completely in mono.
- ♪ "I Love You" on the Phydeaux album "Down Under (But Not Out)" is the short version of the song that originally appeared on Capitol promo single 4481/4482.
- ♪ Both "Organ Grinder" and "Riding High" (Capitol single 5920) were co-written by Larry Norman, according to the labels.
- ♪ Capitol 2078 was first released with the yellow and orange swirl labels and re-released (between 1969 and 1971) with the red and orange "target" labels. Pre-1970 promos had green labels.
- ♪ "Apple Cider" on Capitol single 2251 is from the rock musical "Alison", according to the label. The label also says this song is written by People. "Ashes Of Me" and "Somebody Tell Me My Name" are from the rock musical "Vox Populi" according to the "On Being" booklet from Australia that was released as accompaniment to the "Down Under (But Not Out)" tape (1984).
- ♪ The back cover of the Brazilian issue is in black and white and the album has "I Love You" as the first song on side one. "We Need.." is listed as "We Need A Whole Lot More Of Jesus" on the cover (as a separate song), yet on the label it's listed as on the label of the US release.
- ♪ The cover of the Taiwanese issue is different too; the front cover is a blue/white negative of the original front cover. This release is in fact a bootleg. It was a common practice in Taiwan to make vinyl duplicates of US albums.

- 
- ♪ The single release from Singapore has a shorter version of "I Love You" which is also on the UK pressing (it's different from the US promo edit). It's likely that this one was pressed in Singapore, but this has not been verified.
 - ♪ There's a release of the "I Love You" LP of which it is uncertain where it was pressed. It came in a US cover but the album itself must have been pressed somewhere else. Maybe it's from Singapore? There are some similarities with the 45 from Singapore. A label scan is given with the LP pictures.
 - ♪ Aside from the Brazilian, the Taiwanese issues and the release(s) from Singapore, there may be other exotic releases. I've heard of an Israeli and a Malaysian release.
 - ♪ Capitol EP EAP-21103 is a Spanish release that came with a picture sleeve. The picture sleeves of the Mexican EP's both give the song titles in Spanish (the labels show the English titles). The French "I Love You" single also came with a picture sleeve.
 - ♪ The acetates of People singles feature four unreleased tracks: "Giant Man" (vocal), "Giant Man" (instrumental), "Opposite Me" and "Apple Cider" (instrumental version). "Opposite Me" and the vocal version of "Giant Man" were released on the "Over & Out" CD-r, see "Down Under (But Not Out)".
 - ♪ The "I Love You Korea" CD (Solid Rock ILY-001) is a reissue of the Korean CD with new artwork. In fact the front cover image used is a colored version of the artwork of the first (known) test pressing of "Upon This Rock". The title with "Korea" added refers to Korean Capitol issue that was used as the source for this one.
 - ♪ All CD versions of this album seem to be exactly the same as the LP version.
 - ♪ See also the CD "We Wish You A Larry Christmas".
 - ♪ In October/November 2003 a new CD release of "I Love You" was sold on the Internet. The u-card said it was made in Australia in 1997 (on Norman Records). This is an unauthorized bootleg.
 - ♪ This album was number one in a series of fourteen albums, mentioned on the inner sleeve of "Something New Under The Son" (albums number nine through fourteen have not been released, see part II).

- ♪ The original Capitol LP was released with two variations; one has ST-446 on the labels, the other has SKAO-446 on the labels. There are also two (known) test pressings. See the LP images.
- ♪ Most of the songs on the reissues (the non-Capitol albums) are mixed differently. The Capitol songs are more orchestrated. Really very different are: "Forget Your Hexagram" (resung on the

reissues), "The Last Supper" (just vocal and piano on the reissues) and "Nothin' Really Changes" (resung plus fake live audience on the reissues). "Sweet Sweet Song Of Salvation" has new background vocals (by a group that later became the 2nd Chapter Of Acts. It's also shorter on the reissues, like "Walking Backwards" and "Ha Ha World". "I Wish We'd All Been Ready" seems a little faster on the reissues. "Prelude" ("Overture" on the label) is only on the original Capitol album and on the first US CD. The reissue album has probably been in print for many years.

- ♪ Impact and Heart Warming are closely affiliated. The Impact US release came with red and black labels. The LP from New Zealand has "Impact" on the cover and "Heart Warming" on the labels (the NZ company that pressed the album was Concorde).
- ♪ The UK CD release is a straight reissue of the earlier reissues on vinyl with no extra tracks. The first US CD was released as a "Radio Promo CD" only. It features the reissue version but it also has the Capitol versions of "The Last Supper" and "Ha Ha World" as bonus tracks; the CD starts with "Prelude", like the original LP. Both can also be found on the 2CD version.
- ♪ The 2CD bonus tracks which are part of the Lion's Breath interview are from "the 1968, 1969 musicals". All these songs seem to be late 1960's recordings.

- ♪ The 8 track tape on Masterphonics also contains "Jim Ware's Blues" according to the information on the back (a song from the second version of "Street Level").
- ♪ Although not listed above, there must be Canadian cassette pressings as well.
- ♪ The CD-r release features the re-release version and it has "Dear Malcolm, Dear Alwyn" as a bonus track. "Dear Malcolm, Dear Alwyn" was originally recorded and released on the compilation LP "Jubilation" (Myrrh LP MST-6555, 1975) – so it was kind of misplaced here. Larry Norman copied this disc from a bootleg. The artwork shows the Capitol cover.
- ♪ The Kingsway UK LP was probably in print for several years. 1973 is the year given on the light blue "cloud" label version, 1983 is given on the labels of the darker blue "crystal crown" label version.
- ♪ In 1972 the LP "Son Worshipers" was released (One Way JC-4444), this mainly spoken documentary has shortened versions of "Forget Your Hexagram" and "Sweet Sweet Song Of Salvation, both from "Upon This Rock". In 1973 "Son Worshipers" was also released in the UK.
- ♪ In between the People episode and "Upon This Rock" there was a single released by the Flies. The Flies were Larry Norman and Nancy Jo Norman (Larry Norman's sister). "Blow In My Ear..." is from the rock musical "Alison" according to the label (but it's not on the "Alison" test pressing, see below). According to the "On Being" booklet from 1984, "Letter From The President" is from the rock musical "Love On Haight Street" (this is not mentioned on the label). However, the song "Love On Haight Street" seems to be from "Alison". See next note.
- ♪ In June 2014 the Solid Rock team auctioned a 2LP test pressing of "Alison" ("music from the musical "Alison" taped live from P.A. system"). Click [here](#) to see a webpage showing all four labels and giving further details.

- 
- ♪ In the late 1960's, Larry Norman also recorded several songs that were pressed on one-sided acetate discs. They were auctioned on eBay by the Solid Rock team in 2012 and 2014. The songs are listed above and as far as I know, these specific recordings have not been made commercially available, except for possibly "Love On Haight Street" (see "Rough Street Love Letter") and "Lost Kids" (see 2CD release of "Upon This Rock"). "Marvin David Walter Lincoln Jones" was featured on "Rough Diamonds, Precious Jewels (The Belfast Bootlegs)" as "Marvin, David, Walter, Lincoln Jones", a live recording from 1991 (the song is about a dog). "Country Church Country People" is known from the 2CD reissue of "Upon This Rock" (the acetate version must be similar to this), "The Story Of The Tune" and several other albums. "When All My Dreams Are Ending" is probably similar to the version released on "4 Track Motorola '66 Corolla" (album #85) where the song is titled "All My Dreams".
- ♪ See also "Down Under (But Not Out)", "We Wish You A Larry Christmas", "The Best Of Larry Norman - Volume 1", "The Best Of Larry Norman - Volume 2", "Agitator - The Essential, volume 2", the CD-r version of "Survivor - The Essential, volume 7" and "Instigator - The Essential, volume 1".

- ♪ The original One Way album has a different b-side than the 1971 & 1972 issues (there are probably also post '72 releases on One Way). It was released as a "limited edition" first, with no song titles or any other additional information on the back (1970) and then as an "underground edition", which had the song titles handwritten on the back (early 1971). The "Underground Edition" first appeared with the cover photo inverted. All these original versions (probably 400 in total) came with gold labels and had "Poem" listed instead of "First day in church" (apart from the title, there are no differences).
- ♪ The label numbers of "Street Level" are very confusing. The "Underground" gold label version has 7937 on the cover and 7397 on the labels. Number 7397 is also on the labels of the "Limited Edition" but this one has no number on the cover. My copy of the second version has 7397 on the cover and 3973 on the (baby blue) labels. This 7397/3973 version also appeared with white labels. They can be found with either Carlos Avenue address or a Hollywood Blvd. address and they were in print before the Sonrise Mercantile Company showed up on the back covers (black bands on the bottom of the back cover). The copies distributed by Sonrise were numbered 7937 on both the cover and the labels (label colors were red, white and yellow and most labels did not show the album title).
- ♪ Some gold label copies came with an insert. The insert I know is from the "Underground" version; it's a fold-out insert with handwritten lyrics of "Peace Pollution Revolution" and "Right Here In America" printed at one side and the front cover photo on the other (not inverted). It gives the date "Feb 13, 1971".
- ♪ The Phydeaux album is a reissue of the original "Street Level" but it has the cover of the second album (!). This one was also released as part of the "Barchaeology" 3LP box with the same labels and catalog number. In 1999 the "Barchaeology" box was reissued on the 2CD "Rough Street Love Letter" (with extra tracks).
- ♪ The existence of a UK release of "Street Level" still hasn't been confirmed. Therefore I have removed it from the LP listing above.
- ♪ Side two of the original album is from Norman's rock musical "Lion's Breath". There may be an acetate called "Lion's Breath" ("the Lion's Breath EP") with these songs. See "Upon This Rock" for more songs from "Lion's Breath" (2CD reissue).
- ♪ The live side is part of a solo concert in Hollywood.
- ♪ The cassette release as well as the 8 track release have a totally different song order.
- ♪ The acetate features a version of "Sigrid Jane" that is similar the LP version. It was auctioned by the Solid Rock team in June, 2014.
- ♪ The Illegal Noise CD-r release features both versions of "Street Level". "Dear Malcolm, Dear Alwyn", although mentioned on the u-card, is not present. Larry Norman copied this disc from a bootleg. Solid Rock SRD-970 is a reissue of the gold label version of "Street Level".

- ♪ "Bootleg" is a double album; released with both a gatefold cover and a single slip cover (the Sonrise releases). Most tracks are acoustic (piano, guitar), some are with a band. Side three is a "mixed media" side; it's all spoken except for "Addressing The National Youth Workers Convention" in which Larry Norman performs "Sweet Sweet Song Of Salvation".
- ♪ Some of the original Bootleg releases came with an insert (the UK version has one too). Like "Street Level", many variations exist (labels, lettering on cover, etc.).
- ♪ The first release (baby blue labels) had no title on the front cover and no addresses on the back cover. There's no year of release either. On later releases 1971 is given as the year of release. Because of side four ("1971-1972: Maranatha") and the text on the photo on the back cover (not on the first release), I suppose 1972 is more accurate. I guess that many or all of the One Way reissues were released later than 1972.
- ♪ "Bootleg" was re-released first on cassette with two extra tracks (and a full color cover!), "The Whole World" (a traditional) and "He's The One". In January of 1990 Phydeaux re-released "Bootleg" as a double album with blank white labels (gatefold cover with the red outline "Bootleg" on the front cover). It was re-released again in May of 1990 with printed red labels. These LP re-releases only have the extra track "He's Got The Whole World" (not listed), "He's The One" is missing. "Phydeaux" is not mentioned anywhere on the reissue version, the number "L-34695" has been etched in the vinyl (all four sides).
- ♪ Larry Norman released the double CD-r version in 2001. There are probably five variations (artwork only). Larry Norman used a bootleg version for this release (so, a bootleg of "Bootleg"...).
- ♪ In 2005 it was released again on CD-r (Solid Rock SRD-847). The song listing gives two versions of "He's Got The Whole World In His Hands" (first two tracks). "Classical Mandolin" is not listed but present. "Give Them All To Jesus" is listed as a subtitle of "Addressing The National Youth Workers Convention" which was not given on the original releases. On Jim Böthel's website it says that "The Day That A Child Appeared" is missing (though listed).
- ♪ There's a mispressing where the first LP was issued with "Street Level" labels and jacket. And there's also a UK mispressing of which side two is missing and side three is repeated twice.
- ♪ See also "Where The Woodbine Twineth; The Cottage Tapes".

Notes

This album is part one of "The Trilogy", recorded in England (Air Studios, London). Some titles can be found on previous LP's but these are all new recordings. The Verve release came in a tri-fold cover first, then in a gatefold cover. The labels of the stock copies are black, blue or white. The white label versions also show the MGM logo.

There are US LP re-issues on both Street Level and Phydeaux. The Street Level album was issued as a gatefold pre-release version (with a four side insert & a printed inner sleeve) & as a normal version with a regular cover and silver labels plus a lyrics insert (some were released through Gospel Media). There are two versions of the four side insert, one is printed on normal paper, the

other on "newspaper paper", there are also differences in the contents as the song listings given for the Trilogy box are not the same (!). See also the last note of both "So Long Ago The Garden" and "In Another Land".

- ♪ There's no difference between the Phydeaux version and the Verve version of "I Wish We'd All Been Ready" although there's mention of it on the inner sleeve of the gatefold pre-release Street Level version.
- ♪ The UK MGM & Myrrh releases have regular covers with inserts and feature the original album with "Oh, How I Love You" which is not on the Street Level LP and the Phydeaux LP. On the Phydeaux cassette however, this song does appear! It's also on the CD releases. "Oh, How I Love You" is not listed on any "Only Visiting This Planet" release (but it's listed on "Home At Last").
- ♪ On the labels of the UK MGM release the album title is given as "I'm Only Visiting This Planet".
- ♪ All Australian releases feature the original album with "Oh, I Love You", except for the DTS release; which is missing this song. Focus, Rhema & DTS released the album with a gatefold cover. The Focus & Rhema releases came with two different labels (Focus: yellow and multicolor, Rhema: tan and apricot). The Verve pressing also came with a gatefold cover (black labels).
- ♪ The album from SA (South Africa) comes with a single slip MGM cover and Verve labels. It was distributed by Trutone (Pty.) Ltd.
- ♪ The Street Level & Phydeaux releases have a slightly different song order with some title adaptations (most striking: "Righteous Rocker #1" instead of "Without Love You Are Nothing"). The 8 track tape has a more than slightly different song order.
- ♪ The extra CD track "PeacePollutionRevolution" can also be found on the Phydeaux reissue LP "So Long Ago The Garden" (on the CD it's some 15 seconds longer!) and it's on MGM single 14351 as well (1971 is the year the song was recorded).
- ♪ The extra CD track "Digest" was probably recorded in the 80's. "The Outlaw" is also from a later date. "Righteous Rocker" is very similar to the version on "Larry Norman", on "Down Under (But Not Out)" (US mispress? cassette and Swedish LP) and on "The Best Of Larry Norman"; on this CD it fades into "Forget Your Hexagram" at the end.
- ♪ MGM single 14351 features what may be called "Righteous Rocker #2". It's almost, but not completely the same as "Righteous Rocker #2" on the self-titled Australian album ("Larry Norman"). Now there's one odd thing and that is that the MGM single version was recorded in 1971 (MGM showed the year of recording in the matrix numbers, in this case: 71-L-3022)...
- ♪ The 1998/99 cassette features the CD version.
- ♪ The CD has been re-released several times, in 1999 (it says "1997" on the back but it was probably released in June 1999), in 2000, twice in 2001, 2003, twice in 2004 and in 2008. The artwork changed with every release, most or all of them are CD-rs. According to the November 2003 newsletter, the 2003 version has been re-balanced, re-equalized and re-mastered. There may be more releases with an incorrect year printed on the u-card. And there maybe more releases than the ones listed here. It's possible that the extra tracks are not completely the same on all CD issues.
- ♪ CD SRA-005 ("Maximum Planet") is a collection of demo's and other oddities from the time Larry Norman recorded "Only Visiting This Planet". The complete song listing is given above, but since I don't know the CD, nothing has been checked or compared (same for the other post 2003 CD's).
- ♪ This album was number five in a series of fourteen albums, mentioned on the inner sleeve of "Something New Under The Son" (albums number nine through fourteen have not been released, see part II).

A 3 LP boxed set containing albums #6, #7 & #8 and being titled "The Compleat Trilogy" (as mentioned on the insert of the Street Level reissue of "Only Visiting This Planet") has never been released. This boxed set should feature the trilogy as Larry Norman originally intended. The LP "Only Visiting This Planet" in this set should feature the complete version of "I Wish We'd All Been Ready".

- ♪ This album is part three of "The Trilogy" and was recorded in 1975. Some titles can be found on previous LP's but these are all new recordings. Since this is Larry Norman's best selling album, it's possible that it was also released in other countries than listed (like Australia!). The same could be the case for some single releases ("Deja vu" in the UK?).
- ♪ "I Love You" was written by Larry Norman and Randy Stonehill and first recorded for Stonehill's "Born Twice" album, 1971. Randy Stonehill's version was featured in the movie "Time To Run" (1973).
- ♪ The original US issue comes with a printed inner sleeve and a four-page insert. The cover is gatefold, like the Canadian and the UK versions. The German and (probably) Swedish LP's have single slip covers with a lyrics insert). Apart from a "normal" Canadian release, there's also one that says "Manufactured in U.S.A. for Word Records Limited, Vancouver, B.C., Canada" on the labels.
- ♪ The original 1976 US & Canadian tape have "I Love You" as the second to last track. The US j-card had a blue background, the Canadian j-card had an orange background (there are some other differences in lay-out as well).
- ♪ "Christmas Time" on Solid Rock single 202 is the MGM version (see "So Long Ago The Garden") with horns added and mixed a little differently. This version is not available anywhere else.
- ♪ There is an 18-track test-pressing of this album with the following extra songs: "Strong Love, Strange Peace", "Looking For The Footprints" (both on the CD releases) and "Top 40 Survey" (first reissued on the Phydeaux ARF-007). This test pressing was made in the US, maybe also in the UK and South Africa (!?). In September 2012 a copy of this test-pressing was sold on eBay (for \$1500). There's also a test pressing of the regular version on United Artists.
- ♪ The original Phydeaux cassette has been put together rather different than the LP version. The songs are therefore listed separately. "Righteous Rocker #3" is not on this cassette (although it's listed). There are two versions of this tape, with a slight difference in the layout of the j-card only (one with, the other without the text "Larry Norman, Christian's Rock Reluctant Star").
- ♪ "Top 40 Survey" is a sound collage with parts of famous songs & speeches - it's completely different than "Dove L'etude (Top 40 Survey #2)" on the CD "Gathered Moments (Somewhere In This Lifetime)".
- ♪ The Phydeaux cassette has also been released like the 1993 CD. Same songs and song order. Unfortunately the package of the cassette was not changed (so still the ARF-007 package). - ♪ The 25th Anniversary Edition of "In Another Land" featured five more bonus tracks. Not mentioned in the song listing above are three piano instrumentals by Dudley Moore (yes, the

actor), titled "Miracles", "Phantasy" and "Miracles Redux". This CD was released first with an instrumental version of "Delta Day Jam". This CD appeared to be defective and was replaced by a good version that had Larry Norman's vocals added to "Delta Day Jam". Both "Delta Day Jam" and "Eternal struggle" were recorded ca. 1975. I guess the added vocals to "Delta Day Jam" were from a later date.

- ♪ The first 2003 CD is a reissue of the first CD version but it has the vocal version of "Delta Day Jam" as an unlisted extra bonus track. The CD came with a different front cover/booklet. The march 2003 newsletter said this CD is pressed in Australia, but the CD itself doesn't indicate that. Curious enough, this release is not a CD-r (Larry Norman started releasing his albums on CD-r since 2000).

However, "Righteous Rocker #3" is on the CD, while "I Wish We'd All Been Ready" is missing, and the CD features an extra bonus track ("Strong Love Strange Peace"). "I Love You" is on the CD as a bonus track as well, it's also on the Phydeaux tape, at the end of side 1 (probably also as a bonus track, as this song was originally intended to be released on single and not on "In Another land", if I remember well). "Something New Under The Son" is a very blues-related album; Larry Norman took lots of musical & lyrical parts from old blues songs and from Bob Dylan songs. - ♪ Another Larry Norman compilation; most tracks have been released before. There are two CD versions of SRD-030; the first issue has a blue label, the second a blank label in two variations (all are probably from 1989, although it says 1988 on the booklets and labels). This album is referred to as "Thirty Years" (see "Thirty Years 1956 - 1986") in some discographies (which actually is more like a subtitle, given on the original CD and cassette version only).

- ♪ There are also two pre-release (?) tapes of "White Blossoms" (with resp. 13 and 15 songs). A few songs might have been mixed differently on these tapes (?).
- ♪ The 1997 CD reissue is compiled differently; the songs of this release are given separately with their additions. Different are: "Soul On Fire" (two different versions on SRD-041) and "Woman Of God" (long version on SRD-041).
- ♪ As for the songs from "Only Visiting This Planet", there are some little differences in song length (some other slight differences can be heard though). "Lonely By Myself" is the MGM version (see "So Long Ago The Garden"). If there are any differences between the "In Another Land" version of "The Sun Began To Rain" and the one on these reissues, then I didn't find them...

- ♫ This CD, "compiled, produced and edited by Terry Leskewich and John Wood", features unreleased songs, a couple of unreleased (live) versions of songs and a couple of released but rare versions of songs. They're from the 70's, 80's and 90's and most are live recordings.
- ♫ "Watch What You're Doing" has an extra verse (about an unfaithful woman; the one about Little Joe Billy is not on this version).
- ♫ The original booklet says "Standing At The Crossroads" is from 1995. This should be 1985; it's corrected on the second pressing of the booklet. This song has a Jimi Hendrix like intro (subtitle for this song as given in the booklet: "Ghost Of Jimi Mix") and has some references to "Johnny B. Goode" (a Chuck Berry song). The title was taken from the legendary Robert Johnson song "Crossroad Blues", but the way it's performed here, was obviously inspired by Eric Clapton's version of this song as done by The Cream (1968). The words are different though.

- 
- ♪ See "Live At Flevo" for more details on "Twist And Shout".
 - ♪ According to the booklet "Twist and Shout" and "Unlucky Blues" are from 1988.  - ♪ There's a CD-r released by Terry Leskewich which is without "Parson Brown" and features a full-length version of "Talkin 'Bout Love" (from some hotel tapes of Larry Norman with his son Michael).  - ♪ A follow-up release of "Gathered Moments" has been announced and then postponed. This CD should possibly contain "Jesus Christ" (originally by Woody Guthrie) and Bob Dylan tunes amongst other unreleased material.

- ♫ This is the second of two 2 CD releases, that were released shortly after the passing of John Linn. These CDs were dedicated to him and "his brother Jimmy".
- ♫ The first CD is compiled from more hard to find songs and different live recordings (bootlegs were the sources of all of these songs).
- ♫ The second CD gives an overview of John Linn's contributions to the Solid Rock sound.
- ♫ Omitted from the 2nd CD listing above are two songs by Randy Stonehill and a studio rehearsal by John Linn.

Notes

- ♪ "Rough Diamonds, Precious Jewels" is a 4 CD release compiled by Paul Shaw and Trevor King. Most of the songs are live recordings, all from Irish concerts (1981-2000). The three studio tracks were donated by Larry Norman and were recorded in 2001.
- ♪ The title of this release refers not only to Larry's songs and performances, but also to the Romanian orphans to which all proceeds of the sale of this CD set went.
- ♪ The official Irish release of this 4 CD came in two jewel cases, held together by a cardboard sleeve (400 copies were released this way). Both jewel cases contain booklets. In fact the CDs themselves are also CD-r's! Both 2CDs have been offered for sale separately as well. The booklet of Part 2 was later replaced by Larry Norman, because of printing errors. He also sent them around with new orders.
- ♪ Paul Shaw and Trevor King also released a four song CD-r called "Stranded In Belfast" (featuring "Be Careful What You Sign", "Born To Be Unlucky", "One Way" and "Moses"; "Moses" was not released on the 4 CD) and a sampler disc (also a CD-r) in three variations featuring 25 (version 2 & 3) and 28 (version 1) snippets of songs from the 4CD release. However, some of the snippets didn't make it to the final release. All of these CD-r's came with a printed, full-color front cover.
- ♪ The three sampler discs were produced for people in the UK and Ireland who were interested in buying the 4 CD set, but who wanted to get some idea of the quality of the tracks before committing themselves. The cost of this sampler disc was then deducted from the cost of the 4 CD set if ordered. "Stranded in Belfast" was given as a freebie to people who bought more than 10 tickets to Larry's March 2000 Belfast concert. It turned out to be an early introduction to the 4 CD release.
- ♪ Paul Shaw and Trevor King also released the "Backstage Bulletin" in two editions, giving background information on the Irish concerts. Larry Norman included a slightly different second edition of the Backstage Bulletin in his "three books project", released late 2002. The first edition was sent to the first 50 people who pre-ordered RDPJ as way of apology for the long delay between the proposed release date and the actual release date.
- ♪ Before the "official" release Larry Norman released disc one and two separately and the 4 CD set as the "Cornerstone pre-release" (in one big jewel case, the number SRD-407 is given on disc 1, 3 & 4 and the number SRD-408 is given on disc 2). These CD's are compiled differently. The Cornerstone pre-release even contains recordings made in the Netherlands, New Zealand and England (!). The songs in this 4 CD set are listed above and those which are marked with an asterisk, are not on the official release.
- ♪ Disc 1 and 2 from the Cornerstone pre-release are exactly the same as the separate releases of these discs.
- ♪ "Shake It Up Baby" (which is in fact "Twist And Shout") and "Unlucky Blues" ("Born To Be Unlucky") were recorded in 1987 according to the information on the former "Rough Diamonds, Precious Jewels" website and the second edition of the Backstage Bulletin. The booklet of the "Gathered Moments" CD says these recordings are from 1988, which is not correct.
- ♪ "Under His Love" is in fact a medley that contains "Without Him", "I Wish We'd All Been Ready" and "Messiah". It ends with the Barry McGuire text "We're on The Eve Of Destruction".

Notes

- ♪ Volume 1 of the Essential series, but released as the fourth issue in this series. When this one was released, there were four "Essential" discs. In the correct releasing order: "Agitator" (#2, Nov. 2002), "Survivor" (#7, Dec. 2002), "Collaborator" (#4, Dec. 2002) and "Instigator" (#1, March 2003).

- 
- ♪ "Butterfly" and "Kulderachna" were probably recorded somewhere around 1973, although I have my doubts about "Kulderachna" – it could be a re-recording or maybe new vocals have been mixed in. On the insert of the Street Level reissue of "Only Visiting This Planet" Larry Norman mentions these two songs as being intended for "So Long Ago The Garden".
 - ♪ Songs marked with an asterisk all have "single edit" or "single version" behind the song title on the u-card. None of these were ever released on single though and I wonder if these additions are correct. Most of these songs are indeed shortened, but it seems more like an attempt to make it all fit on a 74 minutes CD...? Bonus track "Butterfly" seems to have been shortened as well.

59. Rock, Scissors et Papier

Summary

An album in the vein of "Gathered Moments", containing rare live & studio performances. Amongst them a duet with Andy Pratt (a cover of Dylan's "In The Garden"), an interpretation of Dylan's "Positively 4th Street" and a long Dylan sound-alike, called "Positively Like A Servant".

Notes

- Like "Gathered Moments (Somewhere In This Lifetime)" this CD contains rare live & studio performances. It's not a CD-r this time.
- "In The Garden" and "Positively 4th Street" are both Bob Dylan covers. The originals can be found on Dylan's albums "Saved" (1980) and on Columbia 43389 (single from 1965). "Positively Like A Servant" seems to be a Larry Norman composition but it's very Dylanesque.

This album was advertised as featuring songs from "The Red, White And Blues Trilogy" that Larry Norman created in 1976 and where he looked back at the history of American roots music. However, it features only two unknown songs and most of the songs are from the 1980s and 1990s.

Notes

- ♫ This compilation was meant to look back at Larry Norman's 1976 project concerning american roots music, called "The Red, White And Blues Trilogy", that was never released. I had not heard of this title before, but there must be a close connection with the 'black and white albums'- see part II of this discography. However, there are only a few songs from the 1976 era to be found here ("Country Church Country People", "Swing Low", "Lord, If I Got My Ticket To Ride" and "Put Your Life In Jesus' Nail Scarred Hands"), most are from the 1980's and 1990's.
- ♫ Songs marked with an asterisk are supposed to be "newly edited versions". These words were used on Larry Norman's official website.
- ♫ "Jesus On The Mainline" is a traditional, which was recorded by several artists over the years. The version on which most cover versions were based, is Mississippi Fred McDowell's interpretation from 1959.
- ♫ "Man Of Constant Sorrow" got quite some attention through the "Oh Brother Where Art Thou" movie where it was a hit record for the Soggy Bottom Boys (2000). It's a traditional that was first recorded by Emory Arthur in the late 20s. The version in "Oh Brother" was based on the interpretation by the Stanley Brothers (1947). Other cover versions were made by Joan Baez, Bob Dylan and others.

The mystery records

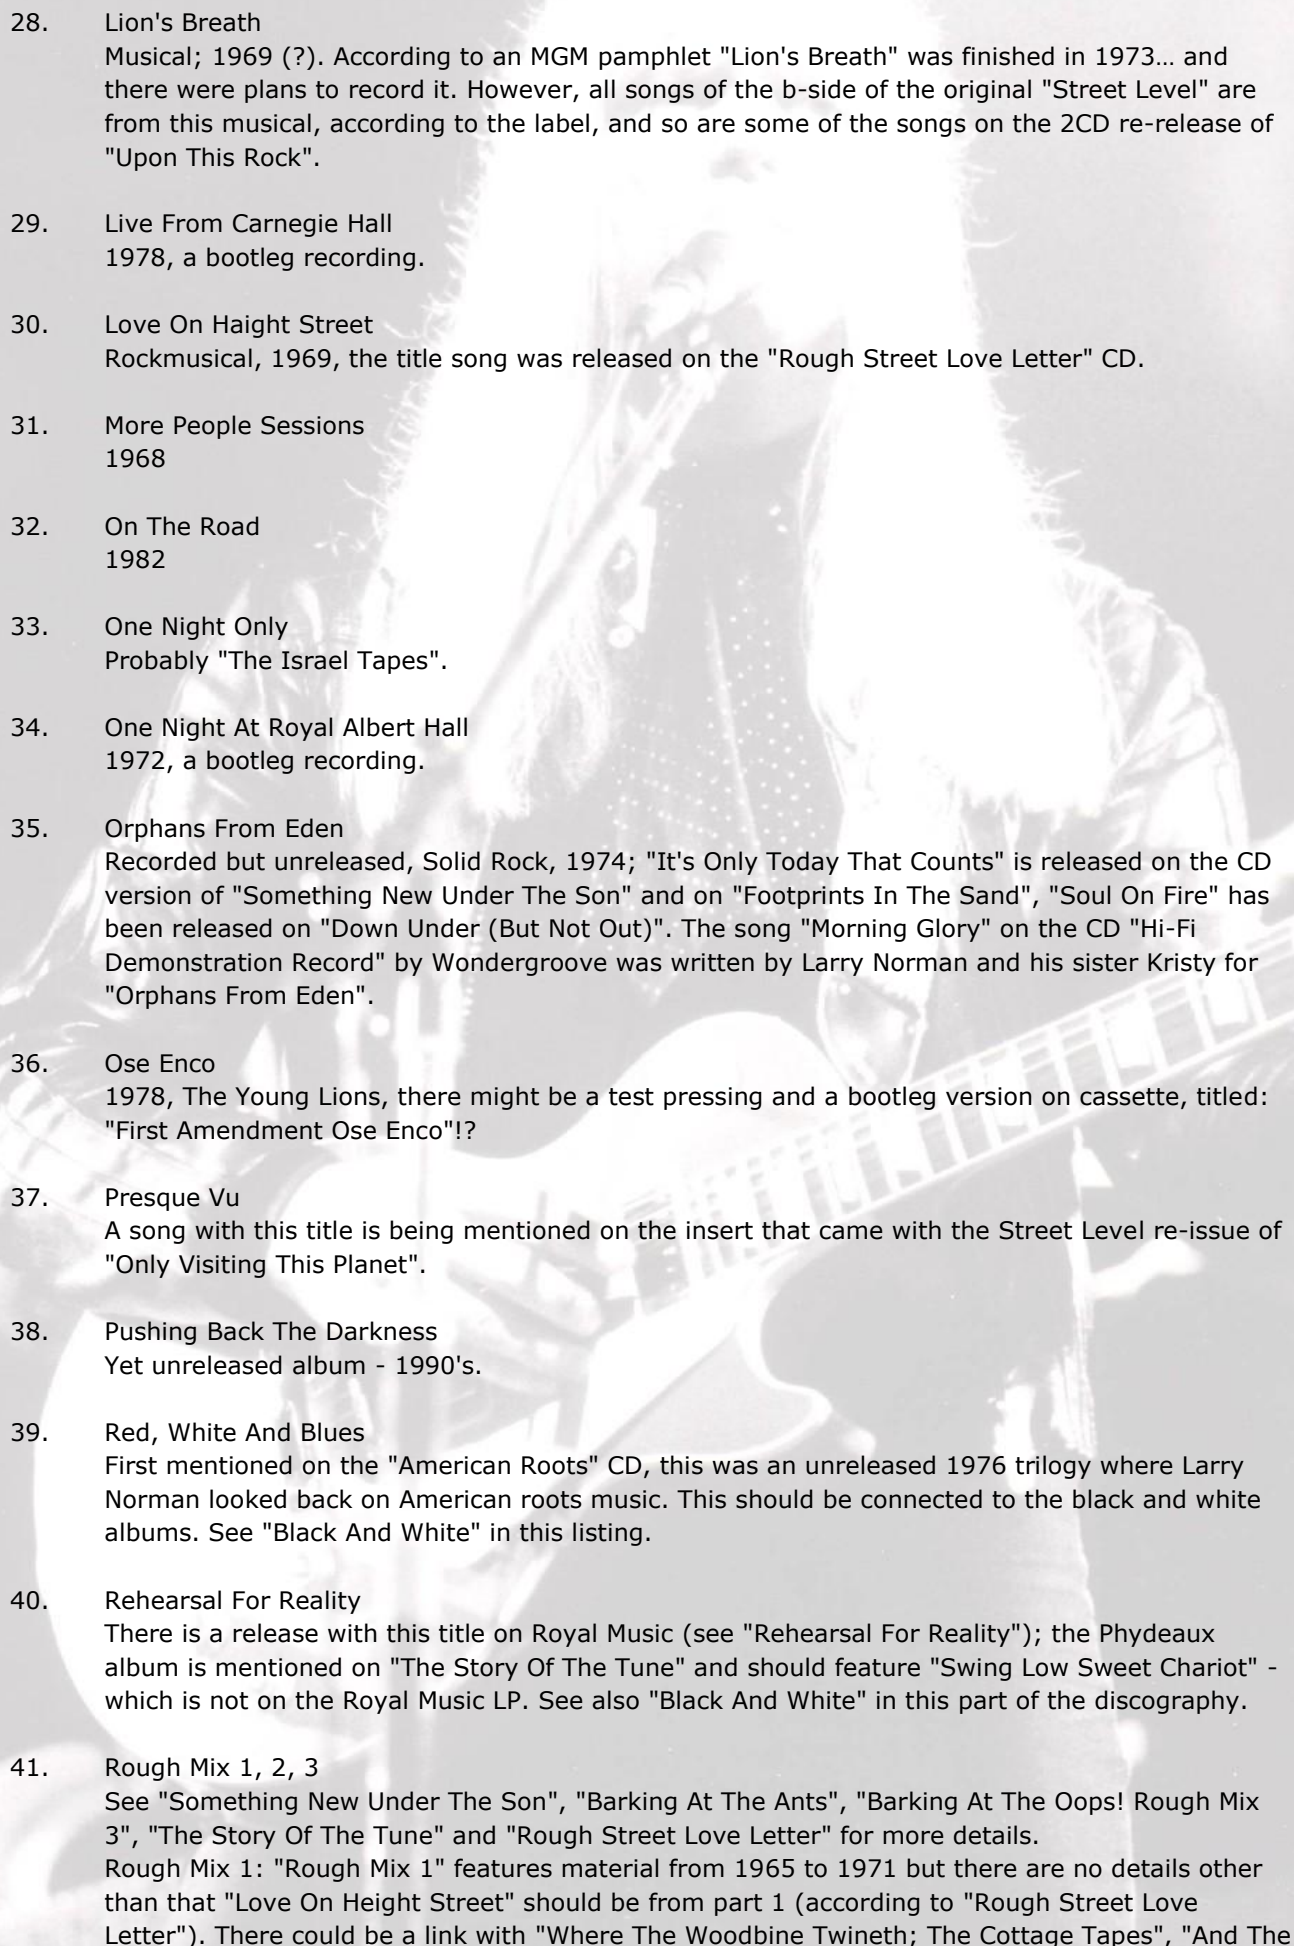

What follows is a listing of albums, film titles and stage musicals that are mentioned by Phydeaux, in various discographies, articles and who knows where else. Most of them have never been released; some are bootlegs, some may not exist at all. The years given could be inaccurate.

1. Alison
Rockmusical, 1968. A 2LP test pressing surfaced in 2014. See the notes of "Upon This Rock" for more details (and a link to a webpage).
2. Also Sprach Kazoostra
Comedy, 1972.
3. Back To America II
Mentioned on the Phriends Of Phydeaux "Stuff For Sale" Internet page. Maybe this title should be "Face To Face, Volume 2"? See "Stop This Flight" for more details.
4. Banned
By The Solid Rock Blues Band and/or The Young Lions, 1978.
5. Before And After
A tribute album to Bob Dylan, probably recorded in the UK around 1982; "Just Like A Woman" has been released on "Barking At The Ants", "Barking At The Oops! Rough Mix 3" and "Rough Street Love Letter", "Positively 4th Street" was released on "Rock, Scissors et Papier".
6. Before The Fall
There's a video called "Night Before The Fall".
7. Behind The Curtain
Unreleased album from 1984 with probably older material. It was scheduled for a May 1986 release according to the front cover of "Back To America". "If I Got My Ticket" has been released on "The Story Of The Tune"; on the back cover of this album - a 1983 release! - it says this song is from "Behind The Curtain". This may be incorrect. See also "Black And White" below.
8. Birthday For Shakespeare
Rockmusical, 1968.
9. Black And White
Referred to as the 'black and white albums' on the booklet of "Rough Street Love Letter", these unreleased albums were probably intended as Larry Norman's homage to black music "from slavery to the present" and white music 'from early traditional settlement music to modern folk songs'. The black album should feature songs like "If I Got My Ticket", "Swing Low Sweet Chariot" and "Parson Brown" (also titled "Death Where Is Thy Sting"). The white album should include "Jesus Christ" and "Moonshine". These songs, probably all recorded in 1976, ended up on the "Rough Mix" cassette together with songs that would be released on "Something New Under The Son" and songs from other projects.
"The Story Of The Tune" LP/CD gives different information on "If I Got My Ticket" and "Swing Low Sweet Chariot" as they should be from the unreleased albums "Behind The Curtain" and "Rehearsal For Reality" respectively...
The "American Roots" album talks about "The Red, White And Blues Trilogy", which must be connected to "Black And White". And if the information is correct, the recordings were meant to be released on three albums.
10. Bootleg 2
11. Brothers At Last

The CD "Solid Rock Sampler 1" includes two duets with Randy Stonehill and these should be from the "Brothers At Last" tapes.

12. Burning

24. Journey Of The Jubilant

25. Journey To The Son
Unreleased live album, 1973-74.
26. L'epoque De Dieu (The Epic)

Musical; 1969 (?). According to an MGM pamphlet "Lion's Breath" was finished in 1973... and there were plans to record it. However, all songs of the b-side of the original "Street Level" are from this musical, according to the label, and so are some of the songs on the 2CD re-release of "Upon This Rock".

The song "Morning Glory" on the CD "Hi-Fi Demonstration Record" by Wondergroove was written by Larry Norman and his sister Kristy for "Orphans From Eden".
 36. Ose Enco
1978, The Young Lions, there might be a test pressing and a bootleg version on cassette, titled: "First Amendment Ose Enco"!?
 37. Presque Vu
A song with this title is being mentioned on the insert that came with the Street Level re-issue of "Only Visiting This Planet".
 38. Pushing Back The Darkness
Yet unreleased album - 1990's.
 39. Red, White And Blues
First mentioned on the "American Roots" CD, this was an unreleased 1976 trilogy where Larry Norman looked back on American roots music. This should be connected to the black and white albums. See "Black And White" in this listing.
 40. Rehearsal For Reality
There is a release with this title on Royal Music (see "Rehearsal For Reality"); the Phydeaux album is mentioned on "The Story Of The Tune" and should feature "Swing Low Sweet Chariot" - which is not on the Royal Music LP. See also "Black And White" in this part of the discography.
 41. Rough Mix 1, 2, 3
See "Something New Under The Son", "Barking At The Ants", "Barking At The Oops! Rough Mix 3", "The Story Of The Tune" and "Rough Street Love Letter" for more details.
Rough Mix 1: "Rough Mix 1" features material from 1965 to 1971 but there are no details other than that "Love On Height Street" should be from part 1 (according to "Rough Street Love Letter"). There could be a link with "Where The Woodbine Twineth; The Cottage Tapes", "And The

Rampion Runs Wild (The Cottage Tapes - Book Two)" and with songs from the two "Motorola" compilations – see the [website](#) for the last three titles.

Rough Mix 2: There are probably two tapes with a "Rough Mix" title of which one was re-released on CD-r by Solid Rock as "Rough Mix 2" in 2011 (see "Something New Under The Son"). It's all rather confusing. Larry Norman originally pressed just a few cassettes and handed them out to a some industry persons (they were bootlegged). I'm not sure if this is "Rough Mix 2"; it's likely but why are "Soul On Fire" and "A Woman Not A Maid" missing? According to "The Story Of The Tune" "Soul On Fire" is from "Rough Mix 2" and so is "A Woman Not A Maid" according to "Rough Street Love Letter". And what about the year of release? 1976 seems to be accurate but according to "Rough Street Love Letter", "Rough Mix 2" collects material from 1972 to 1978. See "Something New Under The Son" for more details on this release. See also "Black And White" in this part of the discography.

Rough Mix 3: The third Rough Mix cassette spans the period 1979 to 1985. See "Rough Street Love Letter"; "Rough Mix 3" is amongst the four albums that were reissued on this box set. The A-sides of "Barking At The Ants" and "Barking At The Oops! Rough Mix 3" were meant to be previews for "Rough Mix 3".
